

Join us for an evening of learning and discussion

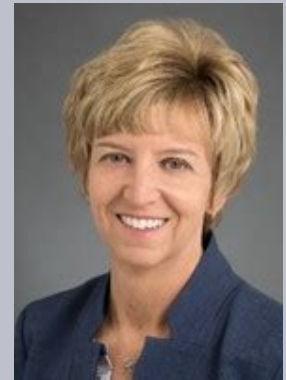

Medical Informatics: A Panel Discussion

Shreepada Tripathy MD MBA MS-SA FAAP FHM
Associate Professor of Clinical Pediatrics
Southern Illinois University School of Medicine

Lance C. Millburg, MBA, CLSBB
Vice President, Chief Quality Officer
Memorial Health System Resource Group

Deidra Glisson, RN, MSN, MBA, NE-BC
System Director Clinical Informatics
Memorial Health System (IL)

Medical informatics is at the forefront of transforming healthcare, bridging the gap between data and actionable patient care. In this forum, we will explore the rapidly evolving field of medical informatics, examining how data-driven technologies, electronic health records (EHRs), predictive analytics, and artificial intelligence are reshaping the healthcare landscape. From optimizing clinical workflows to enhancing patient safety and enabling precision medicine, the integration of informatics tools empowers healthcare professionals to make informed decisions and improve outcomes. Join us as we delve into key innovations, challenges, and future directions in medical informatics, and discover how this dynamic field continues to shape the way we deliver, understand, and improve care.

Thursday, Dec 5th 2024

6:30 PM

Panther Creek Country Club

**Buffet dinner followed by panel discussion
cash bar**

Please RSVP by November 26th to ozma.scms@gmail.com
